

Malte Combo

The Malte Combo offers an opportunity to enhancing customer experiences while they refuel. This innovative unit empowers your customers to make the most of their time by offering a complete car care solution. From cleaning their vehicle and checking tire pressure to topping up washer fluid, Malte Combo simplifies it all.

At Malte, we've always been committed to finding innovative solutions for our customers, and the Malte Combo unit is a result to our creative drive. All in one user-friendly cabinet, customers can access tire inflation, washer fluid, vacuum cleaning, and even an insect remover. Tailored specifically for forecourts and commercial sites, the Malte Combo can

be customized to meet unique requirements, providing a cost-effective package that delivers unmatched convenience. Constructed with a robust sandwich design featuring extruded aluminum profiles, this cabinet can be securely bolted to the ground for added stability.
